

ANTI-COOTIE SHIRT COMING

[BY CABLE TO THE STARS AND STRIPES.]

AMERICA, Nov. 7.—Obscure rumors are abroad in the land to the effect that the anti-cootie shirt is soon to be ordered overseas. This peace of apparel is chemically treated to discourage guests, both regular and transient.

The Army will also be delighted to hear that few changes are contemplated by the retail millinery association in next spring's hats. Medium-sized mushroom sailors, pokes and close-fitting turbans with crowns not too high and turbans more round than elongated are planned. Doughboys will please conform.
